

Natural history states:

S = Susceptible
E₁ = Infection-Fast progression
E₂ = Infection-Slow progression
I = Infected, ill
R = Recovered

Demography:

- birth rate (only applicable to youngest age group), μ
- background mortality
- TB mortality

Natural history states:

S = Susceptible
E₁ = Exposed-Fast progression
E₂ = Exposed-Slow progression
I = Infected, ill
R = Recovered

Demography:

→ birth rate (only applicable to youngest age group), μ
→ group),
→ background mortality
→ TB mortality

Vaccine:

POD
→ vaccination
